

I represent a group of concerned local citizens/students/voter. WE BELIEVE IT IS NOT MORAL FOR ONE CONGLOMMERATE TO OWN 1000 RADIO STATIONS.

The FCC claims to look after the "diversity & localism" of media in the United States. If this is true, then corporate media ownership should be scaled down.

Diversity is by definition the fact or quality of showing variety and/or multiformity. ALL MEDIA BEING CONTROLLED BY A FEW COMPANIES IS NOT DIVERSE.

It is the opinion of our group, that currently companies like Clear Channel unfairly, but legally, own an excess of broadcast networks and are able to subject an unfair bias over the American listenership.

Making it legal for them to own more than they already do would be devastating to the diversity and localism U.S. broadcasting.

THANK YOU FOR READING.
